

Tic Tac Toe Math

This game for two players is similar to regular Tic Tac Toe except in order to place a O or an X you have to answer a math question.

Materials:

A stack of flash cards with different math equations on each card

A Tic Tac Toe board and marker pieces for X's and O's

Play continues until one player has 3 markers in a row.

The level of difficulty can be changed depending on the skill level of the players.

Examples of questions on the flash cards:

Addition, Subtraction, Multiplication, Division facts

Conversion of English to metric measurement

Time

Squares

Geometric Figures

Etc.
